The remainder of the space will be absorbed by he Harbour Master's Office, which will be removed, from its present position to one appropriated for it in the North Eastern angle of the intended

building, in accordance with the proposal submitted by the Committee to Government for per- Edith. mission to use the site which that office at present partially occupies. Finished plane have not yet been prepared, and it is proposed that, at the proper time, they should be thrown open to competition, but the Committoe have satisfied themselves that the space they have applied for will be ample for carrying out the various objects enumerated above on a scale Fawn. which will render the intended editics an ornament to the City, a convenience to the public, and in General Meslin

and progress are the surest proofs of its wealth, Grets, enterprise and prosperity. The argency of the want that exists for a Pub-Building of this nature need scarcely be dilated on. Without diverting the Club House from its legitimate uses, at a great sacrifice of the convenence of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or social Huntress, interest. The difficulties that attended the Inau- Ida Maria, guration Dinner of the Volunteers, the abandon- Indiaman, ment last winter of a Masonic Ball for want of a Indianols, room to hold it in, and the disadvantages to which | Isabella the professional Artists at present here are exposed, are a few instances amongst very many of the inconveniences occasioned by the want of a

City Hall, a want, the Committee believe, which is not shared by any other foreign Community of equal importance East of the Cape, a want which Malving Vidal. has been recently supplied at Singapore and which they trust will not be allowed much longer to serve | Marion, O. T. as an indication of an absence of public spirit in Migrator, Hongkong. The preservation of the valuable collections of Books in the care of the Trustees of the Morrison | Nagasak Education Society, and which are threatened with decay for want of a proper place of deposit, is an object which especially commends itself as a matter of public import in a region so remote from the great centres of civilization, and where the want | Pearl.

of standard works of reference and solid instrucion makes itself continually felt. In reference to the important question of Funds, the Committee are glad to be able to announce that ! they have actually in hand a sum of upwards of Senator, N.B .- Teeth extracted at all hours, fee op. Fifteen Thousand Dollars, which is expected to be Serica, ncreased to unwards of Twenty Thousand Dollara by a Donation from the Chamber of Commerce. Dr P. has for Sale Premium Teeth, Adhesive This amount, which has been collected from variceps in sets, Mouth Glasses, Excavators, Burr made to the Community generally, fall, however, Setau Islander, J. The payment of Tanjore interest on the Canton claims also affords an cop-

portunity for Donations of sums of no great imnortance individually, but which in the aggregate | Vanguard, would materially assist the common object. The Provisional Committee in concluding their Wandering Jew. present report, have thankfully to acknowledge | What Cheer. the receipt of various amounts from Mr. John Dent, | Wild Dayrell, Mr. C. F.
